This Product Disclosure Statement (PDS) is issued by Copia Investment Partners Ltd (ABN 22 092 872 056, AFSL 229316) (Copia, we, our or us), as the responsible entity (RE) of the Vertium Equity Income Fund (ARSN 620 093 423, APIR OPS1827AU) (Fund).

This PDS provides a summary of significant information about the Vertium Equity Income Fund together with references to additional important information about the Fund available at vertium.com.au (the website) or by contacting Copia on 1800 442 129 or via email at clientservices@copiapartners.com.au.

References to additional information are highlighted with an asterisk (*). It is important that you read this PDS and the additional information (which forms part of this PDS) before making a decision about the Fund.

The information in this PDS is general information only and does not take into account your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances.

Information in this PDS may change. Any update to information that is not material will be provided at vertium.com.au. Please check the website or contact Copia or your financial adviser for any updates prior to investing. A paper copy of any update will be provided free of charge on request.

1. About Copia

Copia holds Australian Financial Services Licence (AFSL) number 229316 and is the RE of the Vertium Equity Income Fund. Its role includes holding Fund assets on trust for investors and investing assets in accordance with the Fund's constitution (constitution) and any applicable laws. As RE, Copia's responsibilities and obligations are governed by the Fund's constitution, the Corporations Act 2001 and general trust law.

Copia has appointed Vertium Asset Management Pty Ltd (Vertium or the IM) (ABN 25 615 639 659) as the investment manager of the Fund.

About the investment manager

Established in 2017 by Jason Teh, Vertium is a specialist Australian equity income investment manager.

2. How the Fund works

The Fund is a managed investment scheme in which funds subscribed by individual investors are pooled to buy assets on behalf of all investors in the Fund. Assets are selected and managed by a professional investment management team (*refer to the website, the link to this is accessible on page 1).

The Fund is established under a constitution, which sets out your rights, as well as the powers and responsibilities of Copia. You can obtain a free copy of the constitution by contacting us.

Investors are issued units which entitle them to a proportionate interest in the income and assets of the Fund. Investors do not have an entitlement to any particular asset of the Fund. The Fund's assets are valued in accordance with the Fund's constitution based on market values. Unit prices will vary as the market value of the Fund's assets rises and falls.

A unit price is calculated each business day by dividing the Fund's net asset value (NAV) by the number of units on issue. An allowance for transaction costs incurred in buying and selling Fund assets may be added to or subtracted from the Fund's unit price to determine an application price and a withdrawal price. The difference between the application price and the withdrawal price is known as the buy/sell spread (see 'Fees and costs' for more information).

When you invest in the Fund, you will be issued a number of units calculated by reference to the applicable unit application price.

When you withdraw from the Fund, your units will be withdrawn at the applicable unit withdrawal price.

The most recent unit prices are available on the website, and the link to this is accessible on page 1.

Making an investment in the Fund

To invest in the Fund, complete the form at the back of this PDS titled *Vertium Equity Income Fund Application Form*. See 'How to apply' for more information.

Applications can be made between 9am and 5pm on any business day. However, for unit pricing purposes, any applications we receive after 2pm Melbourne time on a business day, we will generally treat as though we received them on the following business day. You can make payment by EFT, direct-debit or cheque. Personal cheques should be made payable to: National Nominees Ltd Office Clearing Account Copia Application Account.

Cheques must clear before we issue units. Copia reserves the right to reject an application.

A copy of the *Vertium Equity Income Fund Application Form* is attached to this document. You can add to your investment at any time by submitting an Additional Investment Form. Additional Investment Forms are available on the website or by calling Copia on 1800 442 129.

Investments and withdrawals

You can make investments and withdrawals at any time based on the following requirements (which we may change at our discretion):

Initial investment	\$20,000
Additional investment	\$5,000
Withdrawals	\$5,000
Switches	\$5,000
Minimum account balance	\$20,000

Copia is entitled to retain any interest earned on the application money before it is paid into the Fund.

Making a withdrawal from the Fund

You can withdraw all or part of your investment by completing a *Withdrawal Request Form* and returning it to us via post, fax or mail. A *Withdrawal Request Form* can be obtained by contacting Copia.

We must receive withdrawal requests by 2pm Melbourne time for same-day processing. If we receive a withdrawal request after 2pm, we will generally treat it as being received on the following business day. We usually pay withdrawal proceeds directly to your nominated bank account within five business days of receiving a withdrawal request.

Restrictions on withdrawals

We may suspend withdrawals for a period of 60 days from the day on which units would have been withdrawn.

Where we consider it desirable for the protection of the Fund or in the best interests of investors, we may suspend the withdrawal of units in the Fund for the duration of an event or circumstance where the pricing of the underlying assets of the Fund is not possible.

Transfers and switching

You can also transfer your units in the Fund to another person or switch from the Fund to other funds operated by Copia. Contact Copia on 1800 442 129 for more information and to obtain the relevant forms.

Copia does not charge a fee for switching between funds. However, you may incur a cost in switching between funds through the buy/sell spread process (see 'Buy/sell spread' explanation).

Income distribution

The Fund may earn income such as dividends and interest, as well as net realised capital gains, on the sale of underlying assets. Fund income is distributed every year.

Net income and realised capital gains generated by the Fund are distributed to investors quarterly, usually within two months following the end of 31 March, 30 September, 31 December, 30

2. How the Fund works (continued)

June. The Fund's unit price will generally fall following the end of a distribution period reflecting the amount of income and capital gains paid out to unitholders by the Fund.

The distribution amount will vary between distribution periods due to market conditions and investment performance and is not guaranteed.

Subject to the terms of the Fund constitution, there may be times when a distribution is not made by the Fund and times when a 'special' distribution is paid outside of usual distribution periods. Distributions must be made to unitholders of the Fund pro-rata to the proportion each unitholder holds in the total number of units on issue in the Fund. We may pay distributions via a non-negotiable cheque, deposit them directly into a bank account or reinvest them as additional units.

Units issued on reinvestment of a distribution are issued at the unit price at the start of business on the first business day of the new distribution period.

We ask unitholders to nominate their preferred method of distribution on the *Application Form*. If you do not make a

choice, we will automatically reinvest any distributions on your behalf into the Fund. We will distribute any franking credits or foreign tax credits generated during the period with the 30 June payments.

Platform investors

If you are investing through a master trust, wrap account or other investor-directed portfolio-type service (collectively referred to as a 'platform'), then it is important to understand that generally it is the platform that becomes the investor in the Fund, not you. It follows that the platform has the rights of an investor and we recognise it alone can exercise them. If you invest through a platform, you may also be subject to different conditions from those outlined in this PDS (such as procedures for making investments and withdrawals, cooling-off periods, cut-off times for transacting and additional fees and costs). Copia is not responsible for the operation of any platform. If you invest through a platform, in addition to reading this PDS, you should read the document that explains the platform service.

3. Benefits of investing in the Fund

Proven, long-term track record: gain access to the team's extensive Australian equities investment management capabilities and specifically their equity income expertise.

Regular income: potentially receive higher levels of income than the equity market and a traditional defensive investment portfolio, with the added advantage of franking credits. Receive income quarterly at the end of March, June, September and December.

Capital preservation: have the opportunity to preserve capital through Vertium's prudent risk management and cautious approach that prioritises managing downside risk.

Investment growth: gain exposure to the inherent income-producing abilities of quality companies which have the potential to deliver capital growth.

4. Risks of managed investment schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks of investing in the Fund are:

Market risk: the risk of decline across a whole asset class (e.g. the share market) due to economic factors, technological change, political or geopolitical events, changing legal conditions or changing market sentiment.

Investment selection risk: the risk that the specific investments Vertium chooses for the Fund will not perform as well as others. Some factors that may affect the value of a security are specific company earnings, management changes, competitor behaviour, economic conditions, liquidity, investor sentiment, currency and commodity price movements, government policy and global events.

Interest rate risk: the risk that changes in interest rates can have a negative impact directly or indirectly on investment

value or returns. For example, if rates rise, a company's borrowing costs can increase, causing its profits to decline.

Liquidity risk: the risk that securities that are not actively traded may not be readily converted to cash without some loss of capital. The Fund may not be suitable for investors seeking a short-term investment, who are averse to unit price volatility or who are unable to sustain a loss of investment capital.

Derivatives risk: the risk that derivatives include illiquidity, the value of derivative positions not moving in line with the movement in the underlying asset, and the Fund being unable to meet payment obligations as they arise in relation to derivatives contracts.

Regulatory risk: all investments carry the risk that their value may be affected by changes in laws, particularly taxation laws.

Concentration risk: the Fund's typical portfolio holdings of 20 to 40 stocks represents high investment conviction.

4. Risks of managed investment schemes (continued)

General risk: it is important that you carefully consider the risks of investing in the Fund and that you understand:

- the value of investments will vary over time
- the level of returns will vary and future returns may differ from past returns
- returns are not guaranteed and you may lose some, or all, of your capital
- laws affecting registered managed investment schemes may change in the future, and
- the level of risk for each investor will vary depending on a range of factors including:
 - age
 - investment time frames
 - where other parts of your wealth is invested, and
 - your risk tolerance.

5. How we invest your money

The Fund offers one investment option. The following information provides an overview of the Fund's return objective and investment strategy in respect of that option. You should consider the likely investment return and risk of the Fund and your investment time frame when deciding whether to invest in the Fund. The investment option will not change during the life of this PDS.

Description	The Vertium Equity Income Fund is invested in an actively managed portfolio of companies, hybrids and options listed on the ASX.	Strategic asset allocation	The main investments of the Fund are as follows: <table border="1" style="width: 100%; border-collapse: collapse;"> <tbody> <tr> <td style="padding: 2px;">Securities listed on the ASX</td> <td style="text-align: right; padding: 2px;">50 - 100%</td> </tr> <tr> <td style="padding: 2px;">Cash</td> <td style="text-align: right; padding: 2px;">0 - 50%</td> </tr> <tr> <td colspan="2" style="padding: 2px;"><i>(including cash equivalents such as other investment grade interest-bearing securities)</i></td> </tr> <tr> <td colspan="2" style="padding: 2px;">Derivatives*</td> </tr> </tbody> </table> <p><i>*Vertium may use options, futures and other derivatives to manage risk, to gain exposure to particular securities. Derivatives are not used speculatively, to gear the fund, or to short positions.</i></p>	Securities listed on the ASX	50 - 100%	Cash	0 - 50%	<i>(including cash equivalents such as other investment grade interest-bearing securities)</i>		Derivatives*	
Securities listed on the ASX	50 - 100%										
Cash	0 - 50%										
<i>(including cash equivalents such as other investment grade interest-bearing securities)</i>											
Derivatives*											
Investment objective	<p>The flagship, Vertium Equity Income Fund, aims to deliver three investment objectives:</p> <ol style="list-style-type: none"> 1. Greater income than the S&P/ASX300 index (after fees) yearly 2. Lower volatility than the S&P/ASX300 index yearly 3. Potential for capital growth over the long term 	Investment time frame	Five-year plus investment period. This is a guide only, not a recommendation.								
Benchmark	S&P/ASX 300 Accumulation Index	Risk level	The Fund is considered a medium to high-risk investment. The Fund aims to outperform the S&P/ASX 300 Accumulation Index, with less risk over the long term. See 'Risks of managed investment schemes' for more information.								
Investment strategy	<p>Vertium's investment process is based on using bottom-up fundamental analysis to determine the value of companies.</p> <p>The cornerstone of Vertium's investment philosophy is loss avoidance, with the team's research process placing an enormous amount of effort in mitigating downside risks by attempting to pay less than the fundamental value of a security (margin of safety). Vertium will wait patiently and only buy stocks when the margin of safety is expected to be sufficient and sell stocks when the margin of safety disappears.</p>	Fund performance	The Fund's performance is available on the website, and the link to this is accessible on page 1.								
		Other investment considerations	Labour standards and environmental, social and ethical considerations are taken into account when making investment decisions for the Fund.								
		Other information	For up-to-date information about the Fund's investment strategy, performance and unit prices, visit the website, the link to this is accessible on page 1.								

6. Fees and other costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and Costs Summary | Vertium Equity Income Fund

Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs ^{1,2} The fees and costs for managing your investment	0.97%	The management fee is calculated on the net asset value of the Fund. It is reflected in the daily unit price and payable monthly in arrears from the Fund.
Performance fees ^{1,3} Amounts deducted from your investment in relation to the performance of the product	NIL	NA
Transaction costs ⁴ The costs incurred by the scheme when buying or selling assets	0.44%	Transaction costs associated with dealing with the Fund's assets may be recovered from the Fund. As some transaction costs will be paid for by investors who are charged the buy/sell spread when they enter or exit the Fund, the transaction costs are shown net of the buy/sell spread.
Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)		
Establishment fee - The fee to open your Investment	NIL	NA
Contribution fee - The fee on each amount contributed to your investment	NIL	NA
Buy-sell spread - An amount deducted from your investment representing costs incurred in transactions by the scheme	+0.25% of the investment amount. -0.25% of the withdrawal amount.	Charged and paid into the Fund when you invest in, or withdraw from, the Fund. The spread is reflected in the application and withdrawal prices.
Withdrawal fee - The fee on each amount you take out of your investment	NIL	NA
Exit fee - The fee to close your investment	NIL	NA
Switching fee - The fee for changing investment options	NIL	NA

¹ Fees are inclusive of GST and net of any applicable Reduced Input Tax Credits ('RITC'). ² The Fund's indirect costs form part of management fees and costs and are estimated to be 0.00% which is based on the costs incurred for the 12 months to 30 June 2022, as a percentage of the average net asset value of the Fund during that period. ³ Performance fees represent the average of the performance fees charged by the Fund over the past five financial years and which reasonably represent what a typical performance fee may be in any given financial year. However, the actual performance fee payable (if any) will depend on the performance of the Fund and the performance fees estimate provided may not be a reliable indicator of future performance fees. ⁴ Transaction costs estimate is based on the transactional and operational costs incurred for the 12 months to 30 June 2022 (including brokerage) net of the buy/sell spread. Using this approach, transaction costs are estimated to be 0.62% of the NAV of the Fund of which approximately 0.18% was recouped via the buy/sell spread on applications and redemptions to give a net result of 0.44%.

6. Fees and other costs (continued)

Management fee

This is the fee we charge for managing the investments, overseeing the Fund's operations and providing access to the Fund. The management fee is calculated daily as a percentage of the NAV of the Fund and payable monthly in arrears.

Normal operating expenses

We currently pay the normal operating expenses of the Fund from our management fee and do not recover these from the Fund.

Abnormal expenses

We may recover abnormal expenses (such as costs of investor meetings, changes to the Fund's constitution and defending or pursuing legal proceedings) from the Fund. The management costs set out above do not include any abnormal expenses. While it is not possible to estimate such expenses with certainty, we anticipate the events that give rise to such expenses will not occur regularly. In circumstances where such events occur, we may decide not to recover these abnormal expenses from the Fund.

Transactional costs and buy/sell spread

The buy/sell spread is a type of transactional cost that may include brokerage, transaction costs, stamp duty and other government taxes or charges. The purpose of the buy/sell spread is to ensure only those investors transacting in the units at a particular time bear the Fund's costs of buying and selling the Fund's assets as a consequence of their transaction.

The buy/sell spread for the Fund is stated as a percentage of the NAV of the Fund and is the difference between the application price and the withdrawal price. It reflects an estimate of the transaction costs expected to be incurred in buying and selling the Fund's assets as a result of investments and withdrawals made by investors. This estimate may take into account factors such as, but not limited to, historical transaction costs and anticipated levels of investments and withdrawals.

The current buy/sell spread of the Fund is +0.25%/–0.25%, however a different buy/sell spread may apply if the estimate changes.

The RE has discretion to waive or reduce the transaction costs on investments or withdrawals to the extent permitted by the Corporations Act. The RE will notify investors of any changes to buy/sell spread transaction costs on its website.

Fee changes

Fees and costs can change at any time in accordance with the Fund's constitution. If fees and charges payable to the RE increase, the RE will give investors not less than 30 days' notice before the change occurs.

Other costs such as the buy/sell spread may change at any time without prior notice to you. Expense recoveries may be different to those estimated in this PDS.

Fee calculators

ASIC provides a fee calculator on its MoneySmart website (moneysmart.com.au) which can be used to calculate the effect of fees and costs on your investment in the Fund.

6. Fees and other costs (continued)

Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example	Amount	Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	0.97%	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$485 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees
PLUS Transaction costs	0.44%	And , you will be charged or have deducted from your investment \$220 in transactions costs
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and put in additional \$5,000 during that year, you would be charged fees in the range of: \$705 to \$775.50* What it costs you will depend on the investment option you choose and the fees you negotiate.

**Additional fees and costs may apply. Please see 'Transactional costs and buy/sell spread' on page 6. Note that Government fees, duties and bank charges may also apply to investments and withdrawals.*

7. How managed investment schemes are taxed

Warning: Investing in a managed investment scheme is likely to have tax consequences and we strongly advise that you seek professional tax advice before investing in the Fund.

The Fund elected to become an Attribution Managed Investment Trust (AMIT) commencing from the 2018 financial year. It is intended that all determined trust components (i.e. assessable income, exempt income and non-assessable non-exempt income) will be attributed to members each year so that the Fund itself is not subject to tax. The Fund does not pay tax on behalf of investors. As an investor you will be assessed for tax on your attributed share of the Fund's taxable income, including any net capital gains. The amount attributed to an investor will be disclosed on an AMIT Member Annual (AMMA) statement that will be issued following the end of the financial year.

In summary, when investing in the Fund, investors should note:

- managed investment schemes do not pay tax on behalf of investors

- net income and realised net capital gains generated by the Fund are typically fully distributed to investors who are in turn assessed for tax on their share of the distribution based on their individual circumstances
- the Fund will pass through investors' share of any imputation or tax credits received during the year, and
- investors may be liable for tax on capital gains realised on the sale of units in the Fund, either by withdrawal, switch or transfer.

This is only a brief summary of the taxation information which is general in nature and only relates to Australian residents. It does not constitute personal advice. You should consult your own advisers for your particular circumstances.

8. How to apply

Application process

To make your investment, complete the *Vertium Equity Income Fund Application Form* attached to this PDS (application forms are also available on the website or on request from Copia) and send your application money to us in accordance with the instructions on the form.

As part of the application process, we are required by law to

verify your identity before accepting your application. We are unable to process incomplete applications. If we do not receive all of the information and documents required (AML/CTF information essential*), we will hold your investment amount until we have received all information.

**The AML/CTF Laws refer to the obligations arising under the Anti-Money Laundering & Counter Terrorism Financing Act 2006 (Cth).*

8. How to apply (continued)

Cooling-off period

Investors who are retail clients (as defined in the Corporations Act) have a 14-day cooling-off period after making an application for units in the Fund during which time they may cancel their investment by notifying the RE in writing or electronically. This cooling-off period will commence from the earlier of the:

- investor's receipt of confirmation of their investment, and
- end of the fifth day after the issue of units to the investor.

If an investor cancels their investment during this period, the amount repaid to them is adjusted to allow for market movements, reasonable administration and transaction costs and any relevant taxes or duties.

Investments made through the distribution reinvestment plan are not subject to the cooling-off provisions. Indirect investors should contact the operator of their platforms about any right to cooling off.

9. Other information

Complaints procedure

The RE has arrangements in place to consider and seek to resolve any complaints within 45 days of receipt. If you have a complaint, you may contact us by email, telephone or in writing to:

The Complaints Officer
Copia Investment Partners Ltd
Level 25, 360 Collins Street
Melbourne Vic 3000

Email clientservices@copiapartners.com.au
Freecall 1800 442 129 (inside Australia only)
Phone +61 3 9602 3199

If you are not satisfied with our response to your complaint, you may lodge a written complaint with the Australian Financial Complaints Authority (AFCA) for an independent review of your matter.

Copia is a member of AFCA, which is an external dispute resolution scheme that deals with complaints from consumers about financial services and products.

AFCA's contact details are as follows:

Overseas investors

The Foreign Account Tax and Compliance Act (FATCA) is an anti-tax evasion regime enacted by the United States government to identify US taxpayers using offshore accounts. In June 2014, the Australian government passed legislation giving effect to Australia's commitment to FATCA. From 1 July 2014, there has been a requirement to ask investors whether they are US citizens or US residents and to provide information on those who answer 'yes' to the Australian Taxation Office.

Legislation introducing a single global standard on the collection, reporting and exchange of financial account information on foreign tax residents (CRS) took effect on 1 July 2017. Under CRS, we may collect and report to the ATO account information on non-residents. The CRS regime applies to 70 jurisdictions. For new accounts for non-Australian investors, we may collect additional information about the investor's residence and taxpayer identification.
